
关家顺 Jiashun Guan, Ph.D.

Updated Mar. 2026

jiashun.guan@upm.es https://jiashung.github.io/ +34 613307861

Current Affiliation

School of Aeronautics, Universidad Politécnica de Madrid. 2026.01 – Present
Postdoc, supervised by Prof. Javier Jiménez.

Education

College of Engineering, Peking University. 2020.09 – 2025.07
Ph.D. in *Fluid Mechanics*, supervised by Prof. Jianjun Tao.

School of Mechanical Engineering, Tianjin University. 2016.09 – 2020.07
B.Eng. in *Ocean Engineering* (with distinction).

Dept. of Mechanical Engineering, Massachusetts Institute of Technology. 2020.01 – 2020.07
Visiting Student in *Ocean Engineering*, supervised by Dr. Yuming Liu.

Research Interest

My primary research is dedicated to **Turbulence & Transition** ($\mathbf{T^2}$), exploring the underlying physical mechanism with dynamical system approaches, brute-force DNS, experimental data, and machine learning tools.

Publications

* denotes the corresponding author.

Academic Service

- Co-founder of Intelligent and Bio-inspired Mechanics Seminar (IBiM). 2020 – Present
- Reviewer for *Physics of Fluids*.

Honors & Awards

- The Third-prize Scholarship, Peking University. 2022,2021
- Excellent Scientific Research Prize, Peking University. 2021
- **Top Ten Outstanding Youth of School of Civil Engineering (0.28%), Tianjin Univeristy. 2019**
- **National Endeavor Scholarship, Ministry of Education of China 2018**
